Dyslexia and Reading Disabilities Resource Guide

For Families and Teachers Affected by COVID-19

Purpose of Guide

The purpose of this guide from the International Dyslexia Association (IDA) is to introduce you to resources that will help you address the challenges we are all facing as we work and learn from home. We have tried to offer a variety of resources, but most are in the areas of education, special education, and support for struggling readers. This guide is not intended to be comprehensive; nor is it an endorsement of any programs or products listed or promoted on the websites we have shared. Many different types of organizations are listed, not all are nonprofits or partners of IDA. Many for-profit organizations are offering tools and resources for free in response to the tremendous need. It is up to you to carefully explore and assess these and other resources to determine what is most helpful to you and your students and families.

Sharing Resources

In many cases we have listed one specific resource from a source providing many resources, so we encourage you to use these as a jumping off point and continue to explore and share what you find with others and with us (communications@DyslexiaIDA.org) so we can spread the word.

[Clickable links can be found throughout the guide in underlined text in this color.](#)

IDA RESOURCES

Evaluating Resources

The first few items on the list are IDA resources that will assist you in reviewing any products and “solutions” critically as you address the needs of struggling readers.

- [Dyslexia Basics](#)
- [Effective Reading Instruction](#)
- [Structured Literacy Resources](#)
- [IDA’s Knowledge and Practice Standards for Teachers of Reading](#)
- [Interventions to Improve Reading: Buyer Beware](#)
- Letter from Editor-in-Chief of Perspectives on Language and Literacy, Linda S. Siegel, Ph.D.
[Beware of Educational Promises Too Good to Be True!](#)

Finding a Provider

If you are looking for a provider or services in your area, try our Provider Directory or reach out to your local branch.

[IDA Provider and Branch Directories](#)

Refer to the following fact sheets to help you evaluate services and service providers:

- [Evaluating Educational Professionals](#)
- [Helpful Terminology](#)

IDA Accredited Educator Preparation Programs

You may also find useful resources and assistance by reaching out to IDA accredited programs and universities or visiting their websites:

For a list of Accredited Educator Preparation Programs: Higher Education, click [HERE](#).
For a list of Accredited Educator Preparation Programs: Independent, click [HERE](#).

IDA RESOURCES

Other IDA Resources

There will be days...when nothing seems to work right. The lesson goes slowly; the student is restless and perhaps bored. Education was not intended to take place in a single day. Give yourself and the student a break, and with the student, set meaningful goals for the next lesson. (See IDA's fact sheet on [Homeschooling](#))

DE-STRESS! We are all stressed, but the student with dyslexia is even more vulnerable when trying to settle down and learn. IDA's fact sheet on the dyslexia-stress-anxiety connection provides a step-by-step guide for addressing stress, anxiety, and dyslexia. (See IDA's fact sheet [Dyslexia-Stress-Anxiety Connection](#))

Buyer beware! Some organizations and individuals make exaggerated claims about their products and offerings. Parents must learn to be skeptical of any organization or individual making claims that seem too good to be true. It is worth the investment of your time to make sure that products or approaches are truly delivering on their promises. (See IDA's fact sheet [When Educational Promises Are Too Good to Be True](#))

Technologies for dyslexia and other learning disabilities are increasingly available and accessible at lower cost. Everyday devices found in homes, schools, and businesses such as smartphones, tablets, and other mobile devices provide access to technology that is literally at one's fingertips. We have provided some guiding principles to help you evaluate these critical tools and resources. (See IDA's fact sheet [Overview of Assistive and Instructional Technology](#))

[Click here](#) for more fact sheets, including fact sheets in Spanish.

Two Additional IDA Resources for Parents and Teachers of Students with Dyslexia

- [Dyslexia Handbook for Families](#)
- [Dyslexia in the Classroom](#)

Your state may also have its own dyslexia handbook. For example, [New Jersey](#) and [Colorado](#) both have handbooks with information that is useful to anyone wanting more information about dyslexia.

Finally, to address the need for more accessible content from home, we began to share presentations from IDA's past conferences. You can access these recordings and videos [here](#) as they become available. To receive updates on these and other resources provided in the days to come, [please join our mailing list](#).
